Marc, I'll let Matt Goering, Sid Stroud and our legal counsel Ashlie Alaman know this. My Father-In-Law had emergency gall bladder surgery last week. His condition deteriorated over the weekend and I need to stay in Mt Pleasant tomorrow. Thanks Del

I hope your Father-in-law recovers quickly.

Thank you

Marc, I believe the key message the RRC needs to hear tomorrow is your needs for the facilities, haulroads, FM 1870 overpass, the H-Area final pit lake and the H-Area Hill. I believe the H-Area Hill will bring up the most questions but I would stress it will be used as the foundation for a future amphitheater and entertainment complex. Good luck tomorrow.

Ok will do

Marc,
I was talking with Ashlie today and she said the City agreed to setup a meeting with the RRC and TCEQ as an educational instructive type meeting on the water rights. The main person from the RRC, Denny Kingsley, is out of the State until June 20. He definitely needs to be in this meeting. I hope Monty took care of you today?
Thanks Del

I have a different understanding...we need to talk

Can I call you tomorrow morning? I am tied up for a little while

We really need a copy of the development agreement. Still don't have a copy from Ashlie.

I will reach out to her today.

Ashlie "hopes" to have something ready by the end of the week.

We keep hearing similar promises, but....
